TERESIA KEMUNTO OMAE

ELECTRONIC & COMPUTER ENGINEER | TECHNICAL SUPPORT | NETWORK OPERATIONS

Nairobi, Kenya | +254 796 173 506 | teresiakemunto8@gmail.com | www.linkedin.com/in/teresia-kemunto

PROFESSIONAL SUMMARY

Electronic and Computer Engineering graduate with hands-on experience in first-level IT support, network monitoring, hardware/software troubleshooting, database support and technical operations. Supported a Network Operations Centre by monitoring live IP networks across 50+ distribution points, troubleshooting connectivity incidents and escalating faults to maintain service-level targets. Also supported PHP-based system and database configuration, data migration, performance testing, backups and recovery planning. Brings a customer-focused, proactive approach to incident resolution, technical documentation, system monitoring and collaboration with technical teams.

TECHNICAL SKILLS

- **Networking**: NOC, IP addressing, DNS, DHCP, LAN/WAN, network monitoring, router and switch troubleshooting, network configuration.
- **Systems Administration**: Windows Administration, Linux OS installation, Active Directory, OS imaging & deployment.
- **Programming & Databases**: PHP, basic Python, database support, data migration, system performance testing.
- **IT Maintenance & Data Protection**: Software updates, patching, backups, cybersecurity awareness.
- **Industrial Systems**: Motors, Generators, Industrial Control Systems.

SOFT SKILLS

- **Time Management:** Effectively balanced coursework, practical projects and continuous upskilling while meeting deadlines.
- **Attention to Detail:** Careful when diagnosing technical faults, logging incidents, and documenting records.
- **Communication & Collaboration:** Communicating technical issues clearly with users and technical teams, providing support progress updates, and collaborating with Senior Engineers and colleagues.
- **Problem Solving & Adaptability:** Applying analytical and diagnostic thinking to identify root causes, quickly to learn new tools , and support timely resolution.
- **Customer Service & Professionalism:** Maintaining a helpful, respectful and professional approach when supporting users, protecting confidential information, and following procedures.

WORK EXPERIENCE

NOC Technician Intern | Poa! Internet Ltd. — Nairobi, Kenya

June 2025 – August 2025

- Provided first-level technical support by monitoring live IP networks across 50+ distribution points, identifying faults and escalating issues to maintain service-level targets.
- Diagnosed and resolved internet connectivity and network issues involving IP addressing and LAN/WAN environments during scheduled site visits, restoring service for 30+ incidents.
- Supported data center visits to troubleshoot core network devices and complete equipment updates and routine maintenance, contributing to a 15% reduction in repeat incident tickets.

Backend Developer Attache | Learnsoft Beliotech Solutions Ltd. — Nairobi, Kenya

May 2024 – August 2024

- Supported system and database configuration using PHP during data migration projects, contributing to seamless platform integration with zero data-loss incidents.

- Assisted with system performance testing and issue identification; indexing and caching improvements increased query response times by up to 25%.
- Performed routine data backups and recovery planning, achieving 100% recovery-readiness during testing and strengthening operational continuity.

Electrical Engineer Attache | Kenya Seed Company Ltd. — Kitale, Kenya
May 2023 – August 2023

- Diagnosed and resolved hardware and electrical faults on motors and control systems, reducing equipment downtime by an estimated 20%.
- Installed and serviced control switches for 20+ units while maintaining accurate equipment records and adhering to safety requirements.
- Planned preventive maintenance schedules to improve equipment reliability and minimize unplanned disruption.

EDUCATION

B.Sc. Electronic and Computer Engineering
Jomo Kenyatta University of Agriculture and Technology (JKUAT) — Juja, Kenya | *2021 – 2026*

CERTIFICATIONS & PROFESSIONAL TRAINING

- Google IT Support Professional Certificate — Coursera
- IT Customer Support Basics — Cisco Networking Academy
- Network Basics — Cisco Networking Academy
- Soft Skills Training - McKinsey Forward Program
- Cloud & Network Security – Cybershujaa (Ongoing)
